The Wisdom Tree

*Native American
Storytelling Program*

Imagine yourself back in time a long time ago. You are a child sitting crosslegged near the central village fire. Firelight dances on the faces of those seated around you. Your eyes are wide with excitement! Your little heart pounds like thunder! Your tiny hands clutch bits of grass as the old and wise storyteller recounts stories of the heroic acts of courage and history. The storyteller's ancient hands rise up toward the night sky as sparkling embers spiral upwards to join the stars. Through the careful weaving of these stories, the storyteller brings the past, present and future together. You listen. You learn. You remember.
